- Supported Layout Features
- Language Support
- Type Specimens

SECTION A INTRODUCTION TO OPENTYPE®

WHAT IS OPENTYPE?

OpenType® is a cross-platform font file format developed jointly by Adobe and Microsoft. The two main benefits of the OpenType format are its cross-platform compatibility (the same font file works on Macintosh and Windows computers), and its ability to support widely expanded character sets and layout features, which provide rich linguistic support and advanced typographic control.

OpenType fonts can be installed and used alongside PostScript® Type 1 and TrueType fonts.

The range of supported layout features may differ in the various FontFont OpenType packages, therefore each OpenType package will be accompanied by this FF Info Guide listing the layout features supported by this specific font package.

You'll find a glossary of all available OpenType layout features in Section B of the general FF OpenType User Guide.

Please see the FontFont OpenType® User Guide at http://www.fontfont.com/opentype

ABOUT MAIOLA OT BOLD ITALIC

FF Maiola started as part of Veronika's MA in Typeface Design at the University of Reading in 2002/2003. In 2004 Maiola received the 'Certificate of Excellence in Type Design' award from the Type Director's Club (TDC). It was also recognized as a "Judge's Choice" in the competition. Maiola is also part of the travelling exhibition 'e-a-t' (experiment and typography) showing type and graphic design from Czech and Slovakian designers.

Although a contemporary typeface, it retains strong links to historical models, by implementing old-style features and calligraphic forms. Sources of inspiration include Czech type designers Oldrich Menhart and Vojtech Preissig, whose works display vigour and elegance married to expressive and individual character. However, the intention was not to follow their path, but to define a personal interpretation. Maiola is idiosyncrasies with care and imparts the concepts of irregularity and angularity in a rather discrete way — developing an atmosphere of liveliness and esprit. The italic is clearly expressive, communicating more frankly the pen, through its sharp and angular appearance.

ABOUT VERONIKA BURIAN

Veronika Burian was born in Prague in 1973. Her family fled seven years later to Munich, Germany, where she graduated in Industrial Design at the University of Applied Sciences. Before completing her studies she went to Vienna, Austria, to work as product designer at Gregerpauschitz. In 2000 she joined the team of Japanese designer Makio Hasuike in Milan, Italy. Here, Veronika's interests shifted increasingly from product to graphic design and typography where she felt more at home. The decision to focus more exclusively on type design developed naturally, amongst others, through her collaboration with Leftloft for the exhibition Italic 1.0 at ATypI and her involvement in teaching at the Politecnico of Milan. In 2003 she completed her MA in Typeface Design with distinction at the University of Reading, where she started the typeface Maiola. In 2004 it was awarded the TDC Certificate of Excellence and in 2005 became part of the travelling exhibition e-a-t. Currently, she is working as type designer at Dalton Maag in London, UK.
